

AYDIN CAN TUNTAŞ

Senior iOS Developer | Fintech & Crypto

İzmir, Türkiye · actuntas@gmail.com · +90 533 340 83 28 · actuntas.github.io · linkedin.com/in/cantuntas

SUMMARY

Senior iOS developer with 6+ years of experience in fintech and crypto applications. Modernized a legacy crypto exchange app to 99%+ crash-free stability, worked on a full Objective-C to SwiftUI migration, and led a 3-person iOS team after being rehired by a former employer.

EXPERIENCE

PRIMETECH · Senior iOS Developer / iOS Team Lead Oct 2023 – Oct 2024 · Aug 2025 – Feb 2026

Istanbul-based · remote (rehired in 2025 to lead the iOS team)

- Owned the CoinO crypto exchange iOS app across two periods; returned in 2025 as Team Lead of a 3-person iOS team.
- Took over a legacy codebase in poor condition; modernized the architecture and UX and cut screen load times by around 30%.
- Fixed the most critical crashes and performance issues using Instruments and Crashlytics; raised stability to 99%+ crash-free sessions.
- Managed releases on a steady 2-week cycle, including App Store review.
- Both periods ended due to company-wide regulatory restructuring (sector-wide event; references available).

ICRYPEX CRYPTO EXCHANGE · Senior iOS Developer Oct 2024 – Aug 2025

Istanbul-based · remote

- Core contributor to the full migration of the exchange app from Objective-C to SwiftUI (entire codebase).
- Improved app performance and delivered a cleaner, modern UX for both Turkish and global markets.
- Worked closely with product teams under tight regulatory deadlines.

TRIVE · iOS Developer Feb 2023 – Oct 2023

Istanbul-based · remote

- Built the iOS Onboarding SDK used in Trive's brokerage app; the SDK was integrated by an external agency team. Owned the API design and integration support.
- Implemented KYC and authentication flows that met fintech security and compliance requirements.

KASSA · iOS Developer Sep 2022 – Feb 2023

Istanbul-based · remote

- Developed core digital wallet features with a focus on secure transaction flows and compliance.
- Improved the payment-flow UI/UX and overall app performance.

GREENMUSK · iOS Developer Aug 2021 – Sep 2022

Chicago, USA (Istanbul office) · remote

- Developed iOS applications for a US-based company with a focus on security, scalability, and clean architecture.

FREELANCE · iOS Developer Feb 2020 – Aug 2021

Remote

- Built iOS apps for international clients in e-commerce and social networking.

SKILLS

Core: Swift, SwiftUI, UIKit, Objective-C, Combine, Swift Concurrency

Networking & Debugging: REST and WebSocket APIs, Charles Proxy, Instruments, Crashlytics, Firebase

Fintech & Security: Keychain, Face ID / Touch ID, secure transaction flows, KYC integrations

Engineering: Modular architecture, SDK development, release management (TestFlight, App Store), legacy migration, Git, Agile

Other: AI-assisted development (daily use of agentic coding tools) · Turkish (native), English (professional)

EDUCATION

Associate's Degree, Computer Programming — Isparta University of Applied Sciences
